

ISO Management System Development and Support

Overview

Posener HS&E Group has highly competent, qualified (ex BSI) consultants at its disposal to assist you in developing a comprehensive ISO management system that can provide a value-added contribution to your business.

As such, Posener HS&E Group is readily available to develop ISO management systems that are based upon what you do and what you do best.

Posener HS&E Group is able to produce single ISO management systems that will comply with all key, current ISO management standards such as:

- BS EN ISO 9001: 2008 – Quality Management Systems
- BS EN ISO 14001: 2004 – Environmental Management Systems
- BS EN OHSAS 18001: 2007 – Occupational Health and Safety Management Systems

Further to the above, Posener HS&E Group can develop bespoke integrated ISO Management Systems that can encompass two of the above British Standards, or indeed, all three within one single documented ISO Management System.

This service can include provide full assessment support, by managing and coordinating your efforts to gain full 3rd party assessment registration with a recognised UKAS accredited ISO certification body.

On-going maintenance and support

Our consultants are readily available to provide on-going maintenance support that can provide and include the following:

- Carrying out regular, planned ISO Management System audits against an annual audit programme
- Chairing and reporting on periodic planned ISO Management System review meetings
- Providing full support during periodic 3rd party ISO certification surveillance audits
