

Occupational health and social care training workshop

Overview

Occupational health and social care will, inevitably, affect everyone at some stage and in various circumstances – some planned, some unplanned, many often unexpected and some purely accidental.

This course is aimed at providing health and social care leaders with occupational health and social care training that can make a real and positive difference to the lives of the people they work with by providing quality, value led training that can encompass the needs of everyone within their business, and beyond.

Course duration

The training workshop is of half a day duration (3.5 hours).

Depending on client preferences, the course will start at either 09.30am (09.00 registration) or 1.30pm (1.00pm registration) and finish at 1.00pm or 5.00 pm respectively.

What will the training workshop cover?

The training workshop will cover the following key attributes and control measures:

- Understanding key value-based occupational health topics that support Statutory and mandatory requirements
- Implementing effective occupational health compliance management techniques within your organisation
- Best practice in encouraging operational staff to feel competent and confident when carrying out their duties in a wide range of health and social care settings
- Best practice in understanding how to develop competencies, carry out training needs analysis, carry out occupational health audits and develop useful management data within your organisation
- Carrying out effective reviews of progress to further develop and get the most out of your occupational health and social care business management system

Certification

All candidates will be required to complete a simple, straightforward written examination to verify that they have fully understood the scope and content of this training workshop.

On completion of the training workshop, all successful candidates will receive a certification of attendance.
